NOTE: PRNA will make the final determination on classification of play for each team within a division. League grouping within classifications differ from spring to fall due to number of teams registered. 4 teams are needed to form a classification within a division, with the exception of the 10 game Men's Open Division. Players can play on two teams in different classifications, but the teams must be in the classification right above or below each other. However, players may only play one classification above or below them. In other words, players in the open or competitive classification cannot play on a team in the lower or recreational classification. Playing on more than one team or registering more than one team in the same division may result in game conflicts that are not the responsibility of the PRNA.

Due to the over whelming number of individual team requests made each season, team schedule requests will only be considered in very rare circumstances We will no longer be able to accommodate early or late game requests.* Church teams that do not register to play in the Church league will need to be available to play M-TH.
