This agreement is between the City of Tallahassee and _____, whose property is
(Owner)
located at: _____, for the purposes stated herein and agreed to as follows.
(Service Address)

- The customer agrees:
 - That the City has conducted an energy audit on the dwelling located at the above service address.
 - That the final determination of suitable solar exposure, adequate roof support, and rooftop mounting technique will be made by the installing solar contractor, in consultation with the customer.
 - That the customer owns/rents this dwelling (circle one).** *If rented, the property owner will be the rebate applicant.
 - To have solar equipment installed by a state licensed solar or plumbing contractor, installing Florida Solar Energy Center (FSEC) Certified solar domestic water heating System (not pool heating). FSEC System Certification number required on rebate application (your installer provides this number).
 - Freeze-protected Indirect (closed loop) solar equipment required. Open loop drain-down installations will not be approved for rebates.
 - That the installing contractor must request appropriate Growth Management permit(s) prior to installation, and have appropriate inspection(s) of the completed installation by City of Tallahassee or Leon County Building Inspection.
- The City agrees:
 - To provide an energy audit and preliminary solar assessment, if appropriate (1a above).
 - To rebate \$450 for the installation of qualifying solar water heating equipment, whether for first time installation, or for the replacement of an older solar water heating system. *Note: If current water heater is electric, the solar backup water heater can also be electric. If current water heater is natural gas, the solar backup water heater must be natural gas.*
 - Rebate checks will be distributed to the applicant or to the contractor (see #3 below) after the finished installation has passed inspection by City or County Growth Management.
- The customer understands that the contract for solar equipment installation is between the customer and the contractor and that the City of Tallahassee is not a party to that contract. The City does not recommend, endorse or certify contractors, or warrant or otherwise guarantee their work.
- Check here for recommended procedure: Send the solar rebate \$450 check to the customer.**
(Requires that the customer's paid installer invoice or receipt be provided to the City.)
 Check here for direct payment to the installing contractor*.
(Contractor bid shows rebate \$450 amount subtracted from total).
*The customer understands that agreement to allow direct payment to the contractor does not change the status of the parties but is agreed for the sole and exclusive purpose of expediting payment of sums due the contractor.
- The customer understands that the contractor expressly warrants all work completed to be of good workmanship and to conform to the City's specifications. The customer agrees to release and hold the City harmless from any claims of any kind or nature arising either wholly or in part from contractor negligence or intentional acts or omissions while performing the project, or from any acts of the energy auditor, inspectors, or the City of Tallahassee.
- The customer understands that failure to complete the installation within ninety (90) days may result in the reassignment of program funds to another customer.
