WITNESSETH:

WHEREAS, the City issued RFP No. 0222-06-BM-TC (“RFP”) (such document and all addenda thereto, if any, being hereafter referred to as “RFP”) seeking proposals for furnishing and installing vactor bodies, trash truck bodies, and related equipment (“Truck Bodies”); and,

WHEREAS, the Contractor submitted a certain proposal submitted September 14, 2006 (“Proposal”) in response to that RFP; and,

WHEREAS, the City and the Contractor desire to enter into a contract for the purchase Truck Bodies as more particularly set forth in this Contract;

NOW, THEREFORE, in consideration of the mutual promises and covenants, obligations, and terms hereinafter set forth, and other good and valuable considerations, the receipt and sufficiency of which are hereby acknowledged, City and Contractor hereby agree as follows:

SECTION 1.0 PURCHASE TRUCK BODIES.

1.1 Contractor shall provide Truck Bodies as may be ordered from time by the City. All Truck Bodies shall be priced, designed, constructed, and equipped in accordance with the specifications set forth in the Proposal and applicable Change Orders executed by the parties unless otherwise stated in this Contract. All Truck Bodies shall conform and comply with all applicable federal, state, and local laws, statutes, ordinances, and regulations.

1.1.1 The Contractor and the City Fleet Management Division shall schedule the following meetings with respect to each order received from the City:

- (i) A pre-production meeting to completely review the specifications and the drawings prior to commencing assembly or production. This meeting shall include the cab and chassis manufacturer if appropriate. The Contractor shall be represented by qualified technicians/engineers to properly facilitate the design and

construction requirements. This meeting is normally held at the City of Tallahassee facilities.

- (ii) A second meeting will be planned according to the needs of Fleet Management at the Contractor's facilities.
- (iii) A final review and inspection, when each Truck Body is considered by the Contractor to be complete. In addition to a complete inspection, City representatives will conduct a full performance test of each Truck Body and of all integral systems. The Contractor shall provide all technical information and representatives reasonably required to assist the City in these inspections and shall make available to the City all reasonably required third-party certifications. A technician shall be available to complete any needed repairs or to replace items not meeting specifications. At the option of the City, this meeting will be held either at City Fleet Management Division facilities or at the facilities of the body manufacturer.

The Contractor shall coordinate arrangements for these meetings with the City Fleet Management Division and the cab and chassis manufacturer at least three weeks prior to the scheduled meeting. The Contractor shall bear all costs related to participation of its representatives or personnel in these meetings and activities.

1.1.2 The City or the Contractor, at any time, may request changes in the specifications or requirements related to a particular Truck Body. No changes shall become effective until reduced to writing and signed by duly authorized representatives of each party ("Change Order"). All such Change Orders shall include, as a minimum, the following information:

- (i) The specific changes to be made (i.e., chassis, chassis components, equipment, equipment components, bodies etc.).
- (ii) Changes, if any, in the time for delivery of the Truck Body; and,
- (iii) Changes in the price of each Truck Body.

1.2 Equipment. The Contractor shall provide associated equipment and tools as may be ordered from time to time by the City.

SECTION 2.0 PURCHASE OF PARTS

2.1 The Contractor shall provide such parts for all Truck Bodies purchased by the City as may be ordered from time to time by the City. The Contractor shall provide on-line parts ordering capability, if available, for the City and, upon

request, will provide original manufacturer part numbers. All parts ordered by the City shall be delivered FOB to the City Fleet Management Division within 24 hours for emergency orders. 72 hours for standard orders and for stock orders from placement of the order. Delays in shipment beyond the reasonable control of the Contractor shall be subject to Section 10.10; provided, however, the Contractor, in such event, shall promptly provide Notice to the City regarding the details of any such delay so the City can make a final determination regarding responsibility. Long lead time parts or components not reasonable to inventory or fabricated components not reasonable to inventory are examples of orders that may require a longer delivery time. The Contractor shall expedite all such orders as reasonably timely as in possible.

SECTION 3.0 TERM.

The Term of this Contract shall be a period of five (5) years, commencing on January 1, 2007, unless earlier terminated in accordance with the terms of this Contract. Such term may be extended for an additional five (5) year period, subject to mutual agreement of the parties.

SECTION 4.0 CONTRACT PRICING AND PAYMENT.

4.1 Truck Bodies.

4.1.1 During the Term, the City shall pay the Contractor for each Truck Body ordered by the City based upon the Contractor's current pricing at the time a particular order is placed, provided, however, that such price shall not exceed the following:

- (i) for the current model year, the initial prices as set forth in the Proposal,
- (ii) for subsequent model years, the purchase price paid for such model during the preceding model year plus the percentage increase/decrease in the following Producer Price Index, published by the U.S. Department of Labor, Bureau of Labor Statistics, from the date of the Proposal to the latest value: Table 5 (net output of selected industries and their products, not seasonally adjusted), Product code 336211 (Motor vehicle body manufacturing). In addition such index adjustment and upon mutual agreement between the parties, the Contractor may assess a surcharge for the increased costs of production or delivery attributable to new emission requirements set forth in applicable law, increases in steel costs, or increases in fuel costs; or,

- (iii) for any models or equipment not quoted in the Proposal, a price will be set according to lowest price offered by the Contractor to any customer. It is understood that specifications may vary and the Contractor shall demonstrate changes in the specifications are applied according to the lowest price offered by the Contractor to the customer.

Should the Producer Price Index above be re-numbered or cease to be published, the parties shall mutually agree upon a replacement or alternative index.

- 4.1.2 All prices shall be F.O.B. City of Tallahassee, Fleet Management, Tallahassee, Florida, 400 Dupree Street. In addition to the limitations set forth in Section 4.1.1 above, the prices offered to the City during the term of this Contract shall be no greater than the lowest price offered by the Contractor to any customer. The City shall have the right to annually review and audit all Contractor contracts and sales records to verify that the Contractor is in compliance with this most favored pricing requirement. If the Contractor is found not to be in compliance, the City will notify the Contractor, in writing, of such fact, and the Contractor, within 30 days of its receipt of such notice, shall pay to the City the applicable price differential for all affected Truck Bodies purchased by the City, plus interest thereon at the rate of six percent (6%), for the period from the date of final acceptance of each Truck Body through the date of such notice from the City.
- 4.1.3 A standard warranty package (as described in the Proposal) is included in the price of each Truck Body.
- 4.2 Parts and Equipment. The Contractor shall sell parts to the City in accordance with the pricing structure set forth in the Proposal; which cost may be modified from time to time by mutual agreement as set forth in an amendment to this Contract provided, however, that the pricing offered to the City during the term of this Contract shall be no greater than the lowest price offered by the Contractor to any customer. The City shall have the right to annually review and audit all Contractor records to verify that the Contractor is in compliance with this pricing requirement. If the Contractor is found not to be in compliance, the City will notify the Contractor, in writing, of such fact, and the Contractor, within 30 days of its receipt of such notice, shall pay to the City the applicable price differential for all affected parts and associated equipment purchased by the City, plus interest thereon at the rate of six percent (6%), for the period from the date of delivery of the affected parts or equipment through the date of such notice from the City. This provision (4.2) is for the City of Tallahassee only and is not intended for inclusion as part of any purchase by any other entity.

4.3 Payment.

- 4.3.1 All Truck Body prices shall be F.O.B. City of Tallahassee, Fleet Management Division, 400 Dupree Street, Tallahassee, Florida.
- 4.3.2 All proper invoices shall be paid by the City in accordance with the Florida Prompt Payment Act, Section 218.70, Florida Statutes.
- 4.3.3 In addition to other remedies available under this Contract, the City shall have the right to deduct, offset against, or withhold from sums or payments otherwise due the Contractor any sums or amounts which the Contractor may owe to the City pursuant to provisions of this Contract, as a result of breach or termination of this Contract, or otherwise.

SECTION 5.0 DELIVERY AND ACCEPTANCE.

- 5.1 The Contractor shall mount or install each Truck Body on a specified cab and chassis provided by the City (“Installed Truck Body”) and shall deliver each cab and chassis with Installed Truck Body (“Completed Truck”) to the City in accordance with the schedule set forth in the Proposal or such other time period as may be agreed by the parties. The Contractor and the City agree that timely delivery by the Contractor is of the essence of this Contract, that City will suffer damages in the event the Contractor fails to so perform, and that such damages may be difficult to precisely calculate or prove. As a result, the Contractor shall pay the City, as liquidated damages and not as a penalty, the amount of \$100 per day, or portion thereof, for each day of delay in delivery of each Completed Truck ordered by the City. Such liquidated damages shall be paid in addition to any other recourse that may be available to City in the event of such a breach.
- 5.2 The Contractor shall fully assemble, service, and adjust each Installed Truck Body prior to delivery and shall demonstrate, to the satisfaction of the City, that each delivered Installed Truck Body is in perfect mechanical condition. In the event a cab and chassis is shipped to the Contractor’s facility for Truck Body installation, the inspection and acceptance of that cab and chassis by the City shall be performed at the Contractor’s facility under the direction and assistance of the Contractor. An inspection form approved by the City, provided by the cab and chassis manufacturer, shall be completed by the contractor at his facility to establish receipt date and condition of each cab and chassis. Upon delivery to the Contractor’s facility, the Contractor shall be responsible for, and shall bear all risk of loss and damage to, each cab and chassis until the Completed Truck is delivered to the City at its specified location.
- 5.3 Delivery of a Completed Truck to the City does not constitute acceptance for the purpose of payment or warranty start time. The City shall inspect and test each delivered Installed Truck Body to determine whether it meets all specifications and requirements set forth in this Contract and within ten (10) days following

delivery, the City shall notify the Contractor, in writing, of either its final acceptance of the Installed Truck Body or the failure of the Installed Truck Body to meet certain specifications and requirements. In the latter case, the Contractor, within ten (10) days following its receipt of written notice from the City, shall deliver to the City a detailed proposal and schedule for corrective action. If the proposed corrective action is not acceptable to the City, the Contractor will be given a written notice to proceed, and a new inspection, testing, and notice process shall commence upon completion of corrective action. If the proposed corrective action or schedule is not acceptable, or if approved corrective action is not timely completed, the City may refuse the Installed Truck Body. Each Installed Truck Body shall remain the property and the responsibility of the Contractor, and the Contractor shall bear all risk of loss with respect thereto, until final acceptance by the City.

- 5.4 With each Installed Truck Body, the Contractor shall deliver to the City, in an electronic format acceptable to the City, the following:
- (i) three (3) copies of the technical and service manuals for the Truck Body;
 - (ii) a copy of the manufacturer's preventive maintenance schedule;
 - (iii) the manufacturer's statement of origin, title application, and all warranty documents.
- 5.5 All Truck Bodies delivered to the City shall be owned by the Contractor and shall be delivered free and clear of all liens and security interests of any kind.

SECTION 6.0 INDEMNIFICATION.

- 6.1 The Contractor shall indemnify and save harmless the City, its officials and employees, from all losses, damages, costs, expenses, liability, claims, actions, and judgments of any kind whatsoever, including reasonable attorney's fees and costs of litigation, to the extent arising out of or caused by any act or omission of the Contractor, its subcontractors, or their respective employees, officers, directors, or agents, in the performance under this Contract. The indemnification obligation under this clause shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefits payable by or for the Contractor or any subcontractor under any Workers' Compensation Act, Disability Benefit Act, or other Employee Benefit Act.
- 6.2 The Contractor shall, at its sole expense, defend any claim, suit or proceeding brought against the City, its official or employees, to the extend such claim, suit or proceeding is based on a claim that any Truck Body, or any parts, or equipment, furnished under this Contract (collectively, "Infringing Work") constitutes infringement of any registered patent of the United States of America or county of manufacture, provided that City shall give the Contractor prompt

written notice of any such claim, suit or proceeding and shall give the Contractor authority, information and assistance in a timely manner for the defense of the same. The Contractor shall indemnify and hold the City, its officials or employees, harmless from and against all costs and damages awarded, and all attorney's fees incurred or awarded, in any suit or proceeding so defended. The Contractor will not be responsible for any settlement or proceeding made without its prior written approval. In case said Infringing Work is held to constitute an infringement and the use of said Infringing Work is enjoined, the Contractor shall, at its own expense and at its option, either (a) procure for City the right to continue using said Infringing Work, (b) replace said Infringing Work with substantially equivalent, equally functional, non-infringing Work, parts or combination thereof, or (c) modify such Infringing Work so that it becomes non-infringing, while maintaining the same functionality.
