- 1. Revisions to agreements are charged one-half the applicable new agreement fee.
- 2. The plan review fee shall be deducted from the cost of the building permit.
- 3. The re-inspection fee shall be charged for any inspection required beyond the second inspection that is required for any code deficiency cited on the original inspection. The appropriate Inspector, for cause, may waive this fee.
- 4. Substantial revision to plans previously submitted shall be charged an additional fee of ½ the building permit fee assessed, which additional fee is non-refundable.
- Historic properties are exempt from all building permit fees, as long as the property is included as a historic property in the Growth Management departmental database and is on the local register of historic places, as documented by the City's Historic Preservation Board.
- 6. New construction of and additions to single family detached, duplexes, 2, 3, and 4 attached residential units shall pay only the application fee. Roof repairs less than \$300 in cost are exempt from the residential roof permit fee.
- 7. Refunds may be made with the approval of the Building Official. Application fees and plan review fees will not be refunded. Any fees charged that do not have an application or plan review fee associated with them may be refunded for cause less \$25 administrative charges.
- 8. Expedited plans review fees are charged when the permit applicant requests expedited plans review in accordance with the Growth Management policy for expedited plans review.
- 9. In accordance with the Florida Building Code, the Building Official may allow the contractor to start work delineated in the building permit application and plan prior to final approval of the permit application, provided that any work completed is entirely at the risk of the permit applicant and the work does not proceed past the first required inspection.
- 10. The re-inspection fee shall be charged for any subsequent inspection upon notification to the contractor or the contractor's representative that the sediment & erosion control features are not properly installed or maintained when the required corrective measures have not be taken.
- 11. Commercial Shell Buildings for which no Certificate of Occupancy is to be issued (prior to tenant build outs) at the discretion of the Building Official, the Plumbing Fees shall be the application fees plus 50% of the fixture count permit fee calculation; the Structural Fees shall be the application fee plus 75% of the square foot permit fee calculation; and the Electrical Fees shall be calculated using the Miscellaneous section of the Electrical fee schedule.
- 12. The term "1 & 2 Family " is inclusive of Townhouse units constructed in accordance with the Florida Building Code, Residential.
- 13. The Electrical permit fees for commercial storage buildings may be calculated the same as a shell building at the discretion of the Building Official.
- 14. A Temporary Portable Storage Container (TPSC) sticker is required for each TPSC placed in accordance with Chapter 10, Article VII, Section 10-423, Temporary Uses, Tallahassee Land Development Code, each time a TPSC is placed on a new location or when placed on an existing location for a different period of time.
- 15. A training surcharge of \$2.50 shall be added to each building, gas, electrical, mechanical, plumbing, roofing, & sign permit issued.
- 16. The annual facility permit is based on an allowable 6 inspections for valuation equal to or less than \$50,000 and 12 inspections for valuations over \$50,000. Once the number of allowed inspections are met, a re-inspection fee shall be charged for each additional inspection required during the term of the permit.
- 17. Charges shall be made for 15 min increments or major portion thereof. The Building Official may waive the fee for cause.
