Section 10-243. RA Residential Acre District.

1. District Intent

The RA zoning district is intended to be located in areas designated Urban Residential 2 or Suburban on the Future Land Use Map and is intended to apply to selected areas located on the periphery of the urban service area where sanitary sewer is not expected to be available or environmental constraints exist. The regulations of this district are intended to permit low density or intensity development, consistent with environmental and infrastructure constraints, without precluding future expansion of urban services. The maximum gross density allowed for new residential development in the RA district is 1 dwelling unit per acre. This district also allows certain community and recreational facilities related to residential uses.

2. Principal Uses

(1) Cemeteries
(2) Community facilities related to residential uses including religious facilities, police/fire stations, and elementary and middle schools. Libraries, vocational, and high schools are prohibited. Other community facilities may be allowed in accordance with Section 10-413.
(3) Golf courses.
(4) Passive and active recreational facilities.
(5) Single-family detached dwellings.

3. Accessory Uses

(1) A use or structure on the same lot with, and of a nature customarily incidental and subordinate to, the principal use or structure and which comprises no more than 33 percent of the floor area or cubic volume of the principal use or structure, as determined by the Land Use Administrator.
(2) Light infrastructure and/or utility services and facilities necessary to serve permitted uses, as determined by the Land Use Administrator.

DEVELOPMENT STANDARDS

4. Minimum Lot or Site Size

GENERAL NOTES:

1. If central sanitary sewer is not available, non-residential development is limited to a maximum of 2,500 square feet of building area. Community service facilities are limited to a maximum of 5,000 square feet of building area or a 500 gallon septic tank. Also, refer to Sanitary Sewer Policy 2.1.12 of the Comprehensive Plan for additional requirements.
2. Refer to chapter 5, pertaining to environmental management for information pertaining to the regulation of environmental features (preservation/conservation features), stormwater management requirements, etc.
3. Refer to chapter 4, pertaining to concurrency management for information pertaining to the availability of capacity for certain public facilities (roads, parks, etc.).
4. For cluster development standards, refer to section 10-426.
